Republic Policy **Organization**

## ***An Introduction to the Republic Policy Organization***

**R**PO, a registered society under "The Societies Registration Act, 1860," is committed to the public interest and welfare. It comprises retired civil servants, professionals, social activists, and students, and welcomes individuals and organizations from all backgrounds. The society's work has a profound impact on the community, providing policy support to state institutions for public welfare and public interest, and creating awareness of society's social uplift among communities, especially those marginalized.

The society aims to make Pakistan a functional "REPUBLIC" where democracy, human rights, the rule of law, federalism, social protections, art, literature, sports, reforms and good governance may be realized.

By becoming a member, you gain the opportunity to contribute to the joint purpose of making Pakistan a functional republic. You also get to be part of a diverse community of like-minded individuals, access to exclusive events and resources, and the chance to make a real difference in your community. These benefits are just a few of the many reasons to join the Republic Policy Organization.
